

Corrections to *Space and Astronomy*

Page xv, Marilyn Hopman should be Marilyn with two n's.

Page 75, CNO CYCLE diagram, 4<sup>th</sup> row, cross out 2 protons and 2 neutrons under Helium 4.

Page 130, Walter Shirra died just after the book went to print. The dates should be (1923-2007).

Page 152, change 806,432 pounds to 80,643.2 pounds. (Kilograms are correct.) In the next paragraph, insert "(a lunar flyby)" after Zond, 1, 2, and 3.

Page 195, change, "They used the robotic arm to deploy two commercial satellites," to "They tested the robotic arm, and deployed two commercial satellites."

Page 198, "puddy" should be "putty."

Page 207, add a hyphen after Sunyaev's date (1943- ). He is still alive.
